Happy 4th of July / Independence Day if you're in the US!
Because many of our staff live over there, we've chosen to celebrate by releasing a whole 18 CHAPTERS!!!

The stress levels were high at the release point, but we're glad to get them out so that all of you can read your favourites!

Hello Readers, message from Sweet Indulgent

So recently we've started updating chapters a bit faster since our leader - of sorts - has finished her manga, so we're hoping to start releasing chapters daily from now on. We work on a variety of projects, including Baby Diary, Cantarella, Marry Me, Sweet Blood, To Take an Enemy's Heart and Taking Romantica, and are looking forward to taking many more works on in the future.

However, recently we've been feeling a little lonely over on our website, since we only get the occasional golden reader who comes along to chat with us. We're hoping that some of you, our lovely readers, could take some time out of their days to come over and visit us, have a chat, tell us what you like and dislike about our works, what you'd like to see more or less of, what works you might like us to do in the future, or check out our forums and read the chapters that we release early to our website.

It would be super nice of you to even just drop in and say hello, as we love meeting you all. You have no idea how great it feels when someone comes along to say they appreciate the work we do.

We really look to seeing you around
